## Is Fused Glass in YOUR Future?

If you love the colorful glass creations in The Gallery of Ocean Shores, you should consider taking a glass class. A few years ago, we received a generous donation of equipment and materials that allowed us to launch into fused glass art. It's taken some time to build up, but after some remodeling we were able to offer classes at various skill levels, and now we have quite the fused glass "community."

If you're new, we have beginner projects to whet your appetite and get you started. If you're at a more advanced stage, we can help you put together and create your own projects. As word spread throughout the community more people attended classes and workshops. The comraderies shared has helped make our studio a fun and inspiring place to socialize and to create.

We'd like to invite you to come and see what fused glass is all about. Picture frames, cheeseboards, jewelry, soap dishes, bowls, abstracts and beautiful multi-layered scenery are all possible. You're only limited by your imagination, and it's a heck of a lot of fun.
